This Report is brought to you for free and open access by the Integrated Postsecondary Education Data System at DigitalCommons@UNO. It has been accepted for inclusion in IPEDS Completions by an authorized administrator of DigitalCommons@UNO. For more information, please contact unodigitalcommons@unomaha.edu.

IPEDS

INTEGRATED POSTSECONDARY EDUCATION DATA SYSTEM

COMPLETIONS 1987-88

COMPLETION INSTRUCTIONS:

Please read the instructions carefully before completing this survey form. Report data **ONLY** for the institution noted. If data for any other institutions or branch campuses are included in this report because they cannot be reported separately, please provide a list of all other schools included in this report. When complete, please mail your survey form to:

The collection of data for the Carl D. Perkins Act is a voluntary activity.

is mandated by Sec. 421(a)(1) of the Higher Education Act. The programs in this survey are

PURPOSE OF SURVEY

The primary purpose of the survey is to collect basic data on the number of recognized postsecondary education completions in the United States, by the type of program and recognition; to monitor change in postsecondary education completions; and to promote research involving patterns of degrees conferred. The survey is being conducted in compliance with the Center's mission "to collect, and analyze, and disseminate statistics and other data related to education in the United States..." (20 U.S.C. 1221e-1, General Education Provisions Act, Sec. 406(b), as amended).

USES OF DATA

Completion data constitute the only national source of information on the availability and location of highly trained manpower. Information on completers of postsecondary education programs is used extensively by Federal and State government agencies for manpower planning; by business and industry and other groups for recruiting purposes; and by researchers and others to study manpower supply and demand.

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

GENERAL INSTRUCTIONS

Please respond to each item on this report in the space provided. The Glossary provides definitions of terms used in this report.

I. INSTITUTIONAL IDENTIFICATION

In the space provided at the top of the report, make any necessary corrections to the preprinted address information. Also, please enter the name, title, area code and telephone number of the person responsible for completing the report.

II. PERIOD OF REPORT

All degrees and other formal awards conferred by your institution between July 1, 1987 and June 30, 1988 should be reported on this form. Report only those degrees and awards which are actually conferred. Degrees earned but not yet conferred during this time period should be reported in next year's survey. Be sure to include completions in academic as well as vocational or occupational programs.

III. INSTRUCTIONS FOR PARTS A and B

A. Program Classification. This form incorporates the new Classification of Instructional Programs (CIP). A complete list of CIP program titles is included in the IPEDS package. Report awards by CIP as follows:

1. Part A - Report all program completions below the baccalaureate in the appropriate columns.
2. Part B - Report program completions at the baccalaureate and above in the columns as requested.

B. Section 1. Program Completions (Parts A and B). These sections of the survey form include a preprinted list of all program titles and their appropriate 6-digit CIP codes that are known to exist at your institution. If your institution no longer offers one or more of these programs, please delete them by drawing a line through the program title(s). For all remaining programs, enter the number of awards conferred during the reporting period in the appropriate columns.

If awards were conferred in a program specialty that is not listed, please do the following:

1. Refer to the CIP listing and select the CIP program title that most closely represents your program.
2. Enter the 6-digit CIP code and its program title in the spaces provided.
3. If no title on the CIP list can be used to describe your program, either:
 - a. enter the data under the "general" category (0101) or
 - b. enter the exact title of your program and assign the 4-digit code, 9999, following the 2-digit number preprinted in column 1. DO NOT develop any other new code numbers.
4. Enter the number of awards conferred during the reporting period in the appropriate columns.

Programs are coded by 6-digit numbers. Key punching is done according to code number and any manual change will result in improper coding.

C. Section II: Additional Programs (Parts A and B). If awards were conferred in programs within a discipline that was not preprinted in Section I of each part, please do the following:

1. Refer to the CIP listing for the appropriate 2-digit discipline code. Enter this 2-digit code and the discipline division title where indicated.
2. Using the CIP listing, enter in columns 1 and 2, the 6-digit CIP codes and program titles for those specialties in which awards were conferred.
3. Enter the number of awards conferred during the reporting period in the appropriate columns.

D. Award Categories. Report all postsecondary awards, certificates, and diplomas below the baccalaureate in Part A. Bachelor's, postbaccalaureate certificates, master's, post-master's certificates, and doctor's degrees conferred during the reporting period are to be reported in Part B. Do not report honorary degrees.

Except for the Master of Divinity degree (Part C), report all master's degrees in Part B Columns (15) and (16), (even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion).

Post-master's certificates should include, but not be limited to, recognition granted to students who have completed all but their dissertation (ABD's) and thus are not seeking the doctor's degree; Candidate in Philosophy; and Specialist in Education (Ed. S.).

Report all degrees and awards conferred. If a student earned 2 degrees at different levels between July 1, 1987 and June 30, 1988 (e.g., a bachelor's degree at the end of the summer session and a master's degree at the end of the academic year), report each of the 2 awards in its appropriate classification.

E. Classification of Degrees According to Major Field of Study.

1. Specific Classification. Classify degrees as specifically as the list of programs in the broad discipline divisions of the report form permits. Thus, report a bachelor's degree in business administration with an accounting major in Accounting (06.0201), NOT in Business and Management, General (06.0101).
2. Degree of Doctor of Philosophy. Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, NOT as one in Philosophy.
3. Majors of Students Prepared to Teach. The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who are qualified to teach an academic subject, such as English, biology, or foreign languages but did not go through a program solely for that purpose, should be reported respectively in Letters, Biological Sciences, and Foreign Languages, and NOT in Education. On the other hand, the degrees of students who have gone through a program that is specifically preparing them to teach special subjects, as agriculture, art, music, etc., should be reported in Agricultural education (13.1301), Art education (13.1302), and Music education (13.1312, etc.), under Education.
4. Split Major. When a student graduates with a split major, report the degree in the area of greater specialization, if possible. If this is not possible, the degree should be reported in the program closest to the combination. If a split major involves two

languages, report in 16.0101, Foreign Languages, Multiple Emphasis. Similarly, within each of the other discipline divisions, if a split major involves two specialties within a division, the degree should be reported under the appropriate "general" specialty indicated under that discipline heading. For example, a major in history and political science should be reported under 45.0101, Social Sciences, General. If the split major covered more than one discipline division, the degree should be reported in the area of greater specialization. DO NOT REPORT FRACTIONS OF A DEGREE.

5. Double Majors. When a student graduates with a major in two program areas, report the degree in the field in which the degree was awarded.
6. Two degrees. If a student actually received two degrees based on two independent courses of study (e.g., one in Business and Management and one in Foreign Languages), report each degree in the appropriate program area.
7. General Majors. The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report form, such as Physical Sciences, General (40.0101); Social Sciences, General (45.0101); Mathematics, General (27.0101); etc. Thus a degree based on a concentration in History-Government Economics should be reported in Social Sciences, General (45.0101).
8. Interdisciplinary Studies. The CIP code 30 is for reporting fields of study which represent two or more broad discipline divisions. Specify the name of the Multi-Interdisciplinary study when reporting in 30.9999.
9. Arts and Sciences or General Programs Not Organized in Occupational Curriculums. An award or degree based on less than four years of work in the arts and sciences or general programs not organized in occupational curriculums should be reported as Liberal/General Studies (24.0101).

IV. INSTRUCTIONS FOR PART C - FIRST-PROFESSIONAL DEGREES

- A. Section I. First-Professional Programs. This section of the survey form includes a preprinted page for each first-professional degree program known to exist at your institution. If your institution no longer offers one or more of these programs, please delete them by drawing a line through the program title(s). For all remaining programs, enter the number of awards conferred during the reporting period in the appropriate columns.
- B. Section II. Additional First-Professional Programs. Identify any first-professional degree programs not preprinted in Section I by referring to the CIP list for a 6-digit code and program title. Enter this information in columns 1 and 2 and report the number of degrees conferred in columns 3 and 4.

During racial/ethnic collection years, a separate sheet must be completed for each additional first-professional degree program. Indicate the racial/ethnic designation for each first-professional degree program separately.

V. CATEGORIZATION OF STUDENTS BY RACIAL/ETHNIC STATUS AND SEX

The shading in the racial/ethnic parts of the form indicates that CES is not requiring completion of this part of the survey for 1987-88. The Center will request completion of racial/ethnic information next year.

VI. CHECKING THE FORM

C1
4

This form was designed to simplify the checking to see that both the program specialties and the racial/ethnic categories add to the total for a discipline division. By adding down the speciality lines and up the racial/ethnic lines, both should result in the same division totals. Please be sure that these additions are verified prior to returning the form. This will reduce the need for this office to ask for clarification later.

Note that there are no grand total lines on the form. These totals will be generated by computer during the edit process; therefore, be sure to include all pages when returning the form.

CARL D. PERKINS VOCATIONAL EDUCATION ACT

Part C, Sec. 421 authorizes the Center for Education Statistics to develop "a national vocational education data reporting and accounting system" for the collection of information on students including program completers. This survey is one method developed to satisfy the requirements under this act.

DEFINITIONS - POSTSECONDARY COMPLETIONS (C1)

The following definitions are arranged in alphabetical order:

ASSOCIATE'S DEGREE. An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

BACHELOR'S DEGREE. An award that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes ALL bachelor's degrees conferred in a COOPERATIVE or WORK-STUDY PLAN or PROGRAM. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies. Also includes bachelor's degrees in which the normal 4 years of work is completed in 3 years.

DEGREE. An award conferred by a college, university, or other postsecondary educational institution as official recognition for the successful completion of a program of studies.

DIPLOMA. A formal document certifying the successful completion of a prescribed program of studies.

DOCTOR'S DEGREE. An award that requires work at the graduate level and terminates in a doctor's degree. The doctor's degree classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, radiology. For the Doctor of Public Health degree, the prior professional degree is generally earned in the closely related professional field of medicine or in sanitary engineering.

FIRST-PROFESSIONAL DEGREE. An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least 2 years of college work prior to entrance to the program; and (3) a total of at least 6 academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself.

First-professional degrees may be awarded in the following 10 fields:

Chiropractic (D.C. or D.C.M.)

Dentistry (D.D.S. or D.M.D.)

Medicine (M.D.)

Optometry (O.D.)

Osteopathic Medicine (D.O.)

Pharmacy (D.Pharm.)

Podiatry (Pod.D. or D.P.)

Veterinary Medicine (D.V.M.)

Law (L.L.B. or J.D.)

Theology (M.Div. or M.H.L. or B.D.)

MASTER'S DEGREE. An award that requires the successful completion of a program of study of at least the full-time-equivalent of 1 but not more than 2 academic years of work beyond the bachelor's degree.

POSTBACCALAUREATE CERTIFICATE An award that requires completion of an organized program of study requiring 30 credit hours beyond the bachelor's; designed for persons who have completed a baccalaureate degree, but do not meet the requirements of academic degrees carrying the title of master.

POST-MASTER'S CERTIFICATE An award that requires completion of an organized program of study of 60 credit hours beyond the master's degree, but does not meet the requirements of academic degrees at the doctor's level.

POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (less than 1 academic year). Requires completion of an organized program of study at the postsecondary level in less than 1 academic year (2 semesters or 3 quarters) or in less than 900 contact hours by a student enrolled full-time.

POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (at least one but less than two academic years). Requires completion of an organized program of study at the postsecondary level in at least one but less than two full-time-equivalent academic years, or designed for completion in at least 30 but less than 60 credit hours, or in at least 900 but less than 1,800 contact hours.

POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (at least two but less than four academic years). Requires completion of an organized program of study at the postsecondary level in at least two but less than four full-time-equivalent academic years; or designed for completion in at least 60 but less than 120 credit hours, or at least 1,800 but less than 3,600 contact hours.

PROGRAM. A combination of courses and related activities organized for the attainment of broad educational objectives described by the institution.
